High performance design and innovation: FEIN OMTs buying guide and trade prices.

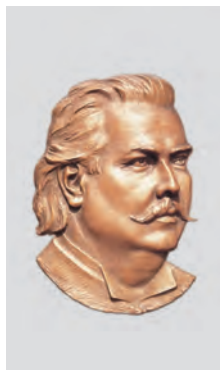

- ▶ Oscillating Multi-Tools ▶ OMT Blades and Accessories
- ▶ Dust Extraction ▶ 12V and 18V Cordless Power Tools

150 years of FEIN creativity, originality and innovation: Working hard to make your work easier, today and tomorrow.

As the inventor of the electric drill and oscillating multi-tool, FEIN has always been committed to excellence through innovation, designing and developing high performance products with one aim in mind: to make your work easier.

Welcome to FEIN

Founded in 1867 by Wilhelm Emil Fein, FEIN is now one of the world's leading power tool designers and manufacturers. From the very beginning, the end-user has always been at the heart of everything we do and will continue to be so.

FEIN is synonymous with extremely reliable, high performance application solutions for manual trades and industry when working with metal, timber and composite materials. Fifty years ago FEIN invented the oscillating multi-tool (OMT) and, since then, tradesmen the world over have put their trust in the ORIGINAL.

This catalogue presents the very best FEIN oscillating multi-tools, blades and accessories in a new format which has been designed with a very similar aim: to make buying easier.

You'll also find sections on dust extraction and cordless power tools – see contents panel.

2016

▶ The Starlock accessory mounting system.

1995

▶ MULTIMASTER universal renovation system.

1987

▶ The world's first safety angle grinder.

1967

▶ The world's first oscillating multi-tool.

1956

▶ The first drill with twin plastic shell design – the FEIN Zwarg.

1914

▶ The first electric hammer drill – the FEIN hammer.

1895

▶ The world's first power tool – the FEIN electric drill.

 **MADE BY FEIN**

FEIN power tools and accessories are not just designed and developed in Germany, they are built in Germany too, and we consider this to be their biggest quality feature.

The materials used in our products have been meticulously selected and perfectly crafted to deliver maximum performance, precision and durability. Made by FEIN is our promise to you, our customers.

3 YEAR
FEIN PLUS
WARRANTY
INC. LI-ION BATTERIES

All new FEIN power tools are guaranteed for three years from date of purchase. Simply register your power tool at www.fein.com/warranty within 6 weeks of purchase.

Cutting edge technology in oscillating multi-tools: Faster, quieter, with up to 70% less vibration.

- ▶ Choose from three professional levels.
- ▶ FEIN patented anti-vibration technology.
- ▶ Enjoy up to 35% faster work rates.
- ▶ Up to 50% quieter operation.
- ▶ Powerful 1.6 to 2.0 degrees oscillation.

Invented by FEIN

FEIN launched the first ever oscillating power tool in 1967. With fifty years continuous development behind them, FEIN oscillating multi-tools (OMTs) have become the go-to universal system for interior work and renovation with a legendary reputation for quality, durability and performance. Our patented anti-vibration technology – which can reduce vibration by up to 70% and operating noise by half – is now available on most machines.

The FEIN MULTI-MASTER is a powerful and indispensable tool for manual trades and industry, offering a class-leading range of solutions with the availability of over eighty different blades with the Starlock mounting system.

With three professional levels available, both in corded and cordless versions, you can be sure to find the right OMT for your needs – see our helpful guide and technical specifications to your right.

www.fein-uk.co.uk

The FEIN patented anti-vibration system works by decoupling the motor and the housing to reduce vibration and noise.

Power previously lost through vibration is now available to the tool, maximising its performance.

This means the user can comfortably enjoy up to 35% faster work rates with far less strain.

MULTITALENT

Professional entry-level OMTs

- ▶ 250W mains or 12V cordless power.
- ▶ Starlock and Starlock PLUS compatible.
- ▶ Anti-vibration on cordless models.
- ▶ QuickIN or screw fitting accessory changes.
- ▶ Professional quality and high output.

MULTIMASTER

The professional benchmark

- ▶ 350W mains or 18V cordless power.
- ▶ Starlock and Starlock PLUS compatible.
- ▶ Anti-vibration system across the range.
- ▶ QuickIN quick release accessory changes.
- ▶ Trusted by professionals worldwide.

SUPERCUT

High power for special applications

- ▶ 450W mains or 18V cordless power / brushless EC.
- ▶ Starlock, Starlock PLUS and MAX compatible.
- ▶ Anti-vibration system across the range.
- ▶ QuickIN quick release accessory changes.
- ▶ Maximum performance and service life.

STARLOCK

- ▶ Safe and speedy tool changes made easy – see page 10.

Every FEIN OMT set comes with a FREE case.

- ▶ SUPERCUT FSC 500 models come in Systainer T-Loc cases.

The new standard accessory mounting system for OMTs: Faster, safer accessory changes in less than 3 seconds.

- ▶ 3D connection for maximum power transfer.
- ▶ Three different levels of power handling.
- ▶ Enjoy up to 45% faster work rates.
- ▶ Up to 50% quieter, smoother operation.
- ▶ Compatible with all popular OMT brands.

Developed by FEIN and BOSCH

Starlock was created by FEIN in partnership with Bosch as an improved, universal accessory fitting system for OMTs. Starlock blades feature a uniquely-shaped circular profile which gives a 3D connection between motor and blade for increased stability and precision, ensuring that 100% of the power is available for the task in hand.

Blades and accessories can be changed quickly and safely without tools. They simply click on in just a couple of seconds improving work rates by up to 45%.

It doesn't matter which brand of OMT you use; the Starlock system is designed to work with all of them – see our helpful guide on the next page.

METABO

MILWAUKEE

AEG

EINHELL

RYOBI

SKIL

STARLOCK

The universal accessory mounting system

- ▶ Works with FEIN **MULTITALENT**, **MULTIMASTER** and **SUPERCUT** OMTs.
- ▶ Fits the most popular oscillating multi-tools from the following brands: Bosch, Makita, Hitachi, Metabo, Milwaukee, AEG, Einhell, Ryobi, and Skil, and all other OMTs that support universal mounting.

STARLOCK PLUS

For high performance blades and accessories

- ▶ Works with FEIN **MULTITALENT**, **MULTIMASTER** and **SUPERCUT** OMTs.
- ▶ Fits all Bosch oscillating multi-tools with suitable tool mount.

STARLOCK MAX

For the most demanding blades and accessories

- ▶ Works with FEIN **SUPERCUT** oscillating multi-tools.
- ▶ Fits comparable Bosch oscillating multi-tools with suitable tool mount.

FEIN long-life wood blades

- ▶ Bi-metal teeth.
- ▶ Can cut through nails.
- ▶ Last 3 times longer than standard blades.
- ▶ High cutting speed.
- ▶ Made by FEIN in Germany.

These blades provide high cutting speed and are not affected by accidental contact with masonry or nails (up to 4mm) making them ideal for sawing in wood, plasterboard, plastic and fibreglass-reinforced plastic.

E-CUT 183 form long-life saw blade

- ▶ Short, very narrow shape for the smallest recesses.
- ▶ 34mm length x 20mm width.

SINGLE PACK	PART NO. 6 35 02 183 21 0	£9.76
3 PACK	PART NO. 6 35 02 183 22 0	£27.79

FEIN standard wood blades

- ▶ Robust high-carbon steel.
- ▶ Ideal for clean cuts in wood.
- ▶ High precision cuts.
- ▶ High cutting speed.

Robust high-carbon steel blades which perform well over time with high cutting speed and high precision in clean wood, plasterboard and plastics. Can become blunt if contact is made with metal or masonry.

E-CUT 133 form standard saw blade

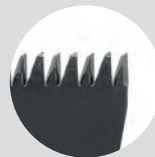

STARLOCK

- ▶ Medium width with waist for optimum cutting speed and swarf removal.
- ▶ 50mm length x 35mm width.

SINGLE PACK	PART NO. 6 35 02 133 21 0	£9.96
3 PACK	PART NO. 6 35 02 133 22 0	£28.38

10 PACK	PART NO. 6 35 02 133 24 0	£84.60

FEIN HCS precision wood blades

- ▶ Double row Japan teeth.
- ▶ Fastest cutting speed.
- ▶ Maximum precision cuts.
- ▶ Made by FEIN in Germany.

FEIN's quickest and most precise saw blades use a Japanese-style tooth pattern to remove excess sawdust quickly with extremely precise results.

Ideally suited for use in clean wood and soft plastics.

Can become blunt if contact is made with metal or masonry.

E-CUT 126 form HCS precision saw blade

STARLOCK

- ▶ Narrow with waist for optimum cutting speed and good swarf removal.
- ▶ 50mm length x 35mm width.

SINGLE PACK	PART NO. 6 35 02 126 21 0	£13.04
3 PACK	PART NO. 6 35 02 126 22 0	£37.22

10 PACK	PART NO. 6 35 02 230 24 0	£107.40

FEIN BIM precision wood blades

- ▶ Bi-metal teeth.
- ▶ Fastest cutting speed.
- ▶ Maximum precision cuts.
- ▶ New saw tooth geometry for greater durability.
- ▶ Made by FEIN in Germany.

With similar geometry to HCS precision blades, BIM precision blades feature bi-metal, double-row Japan teeth which give up to three times longer tool life.

Their shortened, specially ground corner teeth are designed for greater durability and their fast, precise cutting speed makes them ideally suited for use in clean wood and soft plastics.

These blades are more tolerant to hardened materials but are NOT designed to cut nails or screws.

E-CUT 205 form BIM precision saw blade

- ▶ Narrow with waist for optimum cutting speed and good swarf removal.
- ▶ 50mm length x 35mm width.

SINGLE PACK	PART NO. 6 35 02 205 21 0	£14.37
3 PACK	PART NO. 6 35 02 205 22 0	£40.97
5 PACK	PART NO. 6 35 02 205 23 0	£65.90
10 PACK	PART NO. 6 35 02 205 24 0	£122.15

E-CUT 229 form precision saw blade

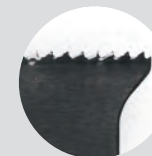

- ▶ Extra wide with waist.
- ▶ 50mm length x 65mm width.

SINGLE PACK	PART NO. 6 35 02 229 21 0	£13.10
3 PACK	PART NO. 6 35 02 229 22 0	£37.35
5 PACK	PART NO. 6 35 02 229 23 0	£58.97
10 PACK	PART NO. 6 35 02 229 24 0	£111.39

FEIN BIM universal blades for wood and metal

OUR MOST POPULAR SAW BLADES

- ▶ Bi-metal corrugated teeth.
- ▶ Optimum cutting speed.
- ▶ Good swarf removal.
- ▶ Extremely durable.

FEIN's most popular blades feature a waved geometry similar to that found on hacksaw blades making them ideally suited to cutting both wood and mild steel.

With bi-metal corrugated universal teeth, these blades have a wide range of applications for sheet metal up to 2mm thick including aluminium profiles, copper pipes, wood, plasterboard and plastics.

Ideally suited for use undercutting door frames and sawing through work pieces where harder material can be hidden such as nails or tacks.

These blades can, however, become blunt if contact is made with screws or masonry.

FOR STARLOCK PLUS E-CUT BLADES SEE PAGES 22 TO 24 ▶▶

MADE BY FEIN

E-CUT 222 form BIM universal saw blade

**STARLOCK**

- ▶ Wide with waist for optimum cutting speed and good swarf removal.
- ▶ 55mm length x 28mm width.

3 PACK	PART NO. 6 35 02 222 22 0	£40.66
5 PACK	PART NO. 6 35 02 222 23 0	£64.16
10 PACK	PART NO. 6 35 02 222 24 0	£121.19

FEIN fine-cut blades for metal

- ▶ Bi-metal with fine teeth.
- ▶ Extremely precise cuts.
- ▶ Very easy to control.
- ▶ Particularly thin cutting line.
- ▶ Made by FEIN in Germany.

Bi-metal with fine teeth for sheet metal up to 2mm thick including aluminium profiles and copper pipes. These blades are also great for precision cutting in fibreglass-reinforced plastic and other hard plastics.

E-CUT 223 form BIM universal saw blade

**STARLOCK**

- ▶ Wide with waist for optimum cutting speed and good swarf removal.
- ▶ 55mm length x 44mm width.

SINGLE PACK	PART NO. 6 35 02 223 21 0	£14.81
3 PACK	PART NO. 6 35 02 223 22 0	£42.23
5 PACK	PART NO. 6 35 02 223 23 0	£66.68
10 PACK	PART NO. 6 35 02 223 24 0	£125.94

E-CUT 157 form fine saw blade

**STARLOCK**

- ▶ Medium width with waist for optimum cutting speed and good swarf removal.
- ▶ 50mm length x 30mm width.

SINGLE PACK	PART NO. 6 35 02 157 21 0	£9.76
3 PACK	PART NO. 6 35 02 157 22 0	£27.79
5 PACK	PART NO. 6 35 02 157 23 0	£43.89
10 PACK	PART NO. 6 35 02 157 24 0	£82.84

FEIN saw blades

- ▶ Ideal for working in plastics and furnishings.
- ▶ Made by FEIN in Germany.

Our circular saw blade is specially designed for making precise cuts in plastics and furnishings. Its segmented shape makes it great for working in corners and tight spaces where round blades would cause overcutting.

Segmented 113 form 85mm Ø saw blade

STARLOCK

- ▶ A saw blade for all plastics and furnishings.
- ▶ Segmented for working in corners and on edges without overcutting.

SINGLE PACK PART NO. 6 35 02 113 21 0 **£19.26**

FEIN HSS metal saw blades

- ▶ Highly versatile blades with a long service life.
- ▶ Made by FEIN in Germany.

Fein HSS saw blades are designed to cut through wood, metal, plastics and glass-reinforced plastics and are available in either fully-rounded or segmented versions – ideal for reaching flush against the work piece. With the introduction of the Starlock fitting, the QuickIn pin is now recessed inside the blade allowing these blades to be used flat.

Round 097 form 85mm Ø HSS saw blade

STARLOCK

- ▶ Solid HSS saw blade with metal teeth.
- ▶ Clean, thin cutting line.

SINGLE PACK PART NO. 6 35 02 097 21 0 **£19.71**
 5 PACK PART NO. 6 35 02 097 23 0 **£88.74**

Segmented 106 form 85mm Ø HSS saw blade

STARLOCK

- ▶ Solid HSS saw blade with metal teeth.
- ▶ Clean, thin cutting line.

SINGLE PACK PART NO. 6 35 02 106 21 0 **£22.62**
 3 PACK PART NO. 6 35 02 106 22 0 **£42.98**
 5 PACK PART NO. 6 35 02 106 23 0 **£101.78**

Round 174 form 85mm Ø BIM saw blade

STARLOCK

- ▶ Bi-metal teeth for longer life.
- ▶ 85mm diameter.
- ▶ 0.7mm cutting width.

SINGLE PACK PART NO. 6 35 02 174 21 0 **£40.30**
 5 PACK PART NO. 6 35 02 174 23 0 **£181.35**

FEIN grout removal blades

- ▶ Tungsten carbide or diamond coated.
- ▶ Segmented for improved access to the work piece.
- ▶ Made by FEIN in Germany.

FEIN grout removal tiles are ideal for removing damaged tiles. They are also great for cutting slots in plaster, porous concrete and similar building materials and even for cleaning and reworking deck joints on boats. They are available in tungsten carbide coated or diamond coated versions – the diamond coated blades lasting approximately four times longer with no noticeable loss of performance.

The diamond coated blades can also cut into very hard epoxy resin and cement joints and are the best choice for frequent use and challenging jobs.

Tungsten carbide 118 form 75mm Ø saw blade

STARLOCK

- ▶ Cost-effective carbide blade.
- ▶ 75mm diameter.
- ▶ 2.2mm cutting width.

SINGLE PACK PART NO. 6 35 02 118 21 0 **£24.82**

5 PACK PART NO. 6 35 02 118 23 0 **£111.72**

Diamond coated 114 form 75mm Ø saw blade

STARLOCK

- ▶ Diamond coated for high performance and longer service life.
- ▶ 75mm diameter.
- ▶ 2.2mm cutting width.

SINGLE PACK PART NO. 6 35 02 114 21 0 **£52.57**

5 PACK PART NO. 6 35 02 114 23 0 **£236.54**

Tungsten carbide 125 form 75mm Ø saw blade

STARLOCK

- ▶ Cost-effective carbide blade.
- ▶ Extra thin version.
- ▶ 75mm diameter.
- ▶ 1.2mm cutting width.

SINGLE PACK PART NO. 6 35 02 125 21 0 **£24.82**

5 PACK PART NO. 6 35 02 125 23 0 **£111.72**

Diamond coated 216 form 75mm Ø saw blade

STARLOCK

- ▶ Diamond coated for high performance and longer service life.
- ▶ Extra thin version.
- ▶ 75mm diameter.
- ▶ 1.2mm cutting width.

SINGLE PACK PART NO. 6 35 02 216 21 0 **£52.57**

5 PACK PART NO. 6 35 02 216 23 0 **£236.54**

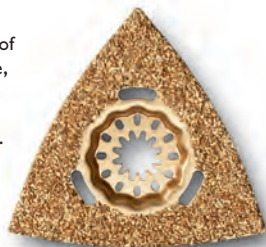

FEIN rasp blades

- ▶ Tungsten carbide coated.
- ▶ Delta shape for precision working in corners.
- ▶ Perforated for use with dust extraction units.
- ▶ Made by FEIN in Germany.

Ideal for the rough sanding or rasping of fillers, tile adhesive, old paint, concrete, stone and wood.

Tungsten carbide 80mm rasp

- ▶ For rough sanding of fillers, tile adhesive, concrete, stone and wood.
- ▶ 80mm edge length.
- ▶ Perforated for use with dust extraction.

STARLOCK

SINGLE PACK PART NO. 6 37 31 001 21 0 **£24.63**

FEIN sanding backing pads

- ▶ Choice of delta or finger shape pads for precise work in difficult-to-reach areas.
- ▶ Easy-fit pads with hook and loop fastening.
- ▶ Perforated options for use with dust extraction.

From the simple and effective renovation of painted and weathered surfaces to all other sanding applications, FEIN genuine sanding pads get you perfect results every time. When combined with the powerful FEIN MULTIMASTER OMTs the sanding capacity of most other oscillating or eccentric sanders is far surpassed.

Unperforated 80mm delta shape sanding pad

- STARLOCK**
- ▶ Standard sanding pad.
 - ▶ Plastic carrier protects the work piece.

2 PACK PART NO. 6 38 06 129 22 0 **£10.76**

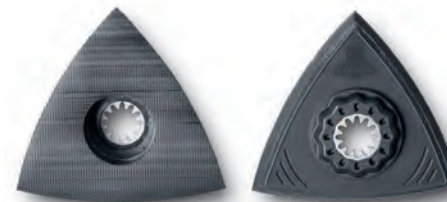

Perforated 80mm delta shape sanding pad

- STARLOCK**
- ▶ Perforated for use with dust extraction.
 - ▶ Plastic carrier protects the work piece.

2 PACK PART NO. 6 38 06 136 22 0 **£16.50**

Super-soft 80mm delta shape sanding pad

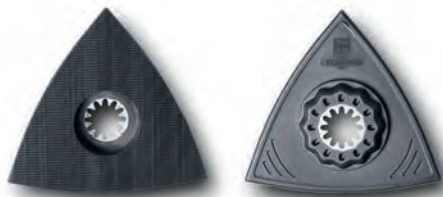

- STARLOCK**
- ▶ For special areas of application.
 - ▶ Plastic carrier protects the work piece.
 - ▶ Only for use with super-soft sanding sheets.

2 PACK PART NO. 6 38 06 141 22 0 **£14.56**

FOR OUR RANGE OF SANDING SHEETS SEE PAGES 38 TO 40 ▶▶

Super thin 80mm delta shape sanding pad

**STARLOCK**

- ▶ Low profile, ideal for very narrow, flat openings like window shutters or slats.
- ▶ Plastic carrier protects the work piece.

2 PACK

PART NO. 6 38 06 142 22 0

£14.56

50mm finger shape sanding pad

**STARLOCK**

- ▶ For use in very narrow and deep places, in channels, grooves, openings and folds.
- ▶ Plastic carrier protects the work piece.

2 PACK

PART NO. 6 38 06 159 22 0

£11.55

FEIN scraping and cutting blades

FEIN scraper blades have been specially designed for a number of applications. They are great for removing carpet and tile adhesive residues, underseal coatings and old paint. The flexible scraper is great for removing stickers and silicone and acrylic joints in bathrooms, whilst the uniquely-shaped mushroom blade is ideal for cutting silicone and soft putty material and for working with insulation glass units.

These blades also can be sharpened by placing a running blade on slow speed against a sanding sheet.

Felt delta shape polishing pad

**STARLOCK**

- ▶ For polishing metal parts and decorative polishing of stone and stone products.
- ▶ Can be used with gelcoats on boats.
- ▶ Plastic carrier protects the work piece.

2 PACK

PART NO. 6 38 06 140 22 0

£29.18

Flexible scraper

STARLOCK

- ▶ 0.4mm cutting width.
- ▶ 34mm length x 52mm width.

SINGLE PACK

PART NO. 6 39 03 165 21 0

£14.49

Fixed short scraper

STARLOCK

- ▶ 0.8mm cutting width.
- ▶ 34mm length x 50mm width.

SINGLE PACK

PART NO. 6 39 03 226 21 0

£14.99

Mushroom-shaped blade

STARLOCK

- ▶ For cutting silicone and soft putty material.
- ▶ Ideal for separating insulation glass units.

5 PACK

PART NO. 6 39 03 245 23 0

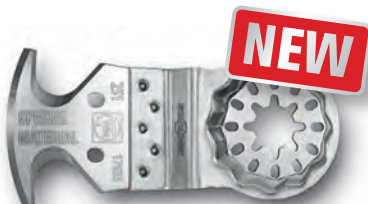

£26.74

FEIN multi blades

- ▶ Versatile multi-function blade.
- ▶ Ideal for cutting flexible materials.

The FEIN multi-function cutter is extremely versatile for a variety of applications and materials such as cutting carpet, PVC floors, cardboard, bitumen shingles and roofing fabric.

Multi blade

STARLOCK

- ▶ 3 cutting blades for extra versatility.
- ▶ Ergonomic design allows easy access to the work task.

SINGLE PACK PART NO. 6 39 03 251 21 0 **£20.95**

3 PACK PART NO. 6 39 03 251 23 0 **£94.28**

FEIN multi-packs and accessory sets

- ▶ Cost-effective and convenient.
- ▶ Task-based bundles save time reordering blades and accessories.

FEIN multi-packs and accessory sets are a great way of stocking up on blades and accessories or preparing for specific tasks.

We've combined some of our most popular blades and accessories into these cost-effective bundles to save you time and money.

E-Cut saw blade combo set

STARLOCK

- ▶ 1x 35mm E-Cut long-life saw blade.
- ▶ 1x 65mm E-Cut long-life saw blade.
- ▶ 1x 44mm E-Cut universal saw blade.

3 PIECE SET PART NO. 3 52 22 952 13 0 **£39.13**

Flooring accessory set

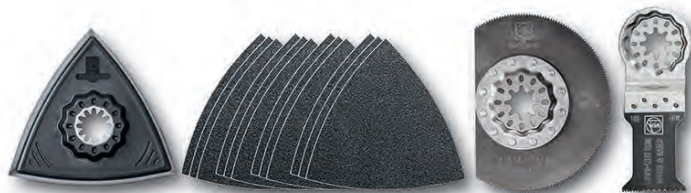

STARLOCK

- ▶ 1x fixed scraper blade.
- ▶ 1x HSS segment saw blade.
- ▶ 1x 44mm universal E-Cut saw blade.

3 PIECE SET PART NO. 3 52 22 952 22 0 **£40.76**

Window accessory set

STARLOCK

- ▶ 1x 80mm saw blade.
- ▶ 1x HSS 85mm saw blade.
- ▶ 1x sanding pad and sanding sheets (12x each 80, 120, 180 grit).

39 PIECE SET

PART NO. 3 52 22 952 23 0

£40.76

Bathroom accessory set

STARLOCK

- ▶ 1x 80mm carbide rasp.
- ▶ 1x 90mm carbide saw blade.
- ▶ 1x 65mm E-Cut long-life saw blade.

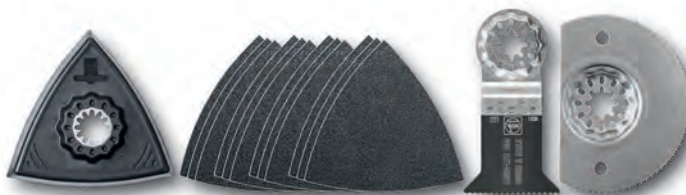

3 PIECE SET

PART NO. 3 52 229 52 25 0

£51.21

Universal accessory set

STARLOCK

- ▶ 1x 80mm saw blade.
- ▶ 1x HSS 85mm saw blade.
- ▶ 1x sanding pad and sanding sheets (12x each 80, 120, 180 grit).

£39.90

21

FEIN long-life wood blades

- ▶ Bi-metal teeth.
- ▶ Can cut through nails.
- ▶ Last 3 times longer than standard blades.
- ▶ High cutting speed.
- ▶ Made by FEIN in Germany.

These blades provide high cutting speed and are not affected by accidental contact with masonry or nails (up to 4mm) making them ideal for sawing in wood, plasterboard, plastic and fibreglass-reinforced plastic.

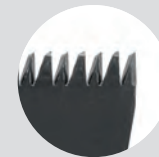

FEIN standard wood blades

- ▶ Robust high-carbon steel.
- ▶ Ideal for clean cuts in wood.
- ▶ High precision cuts.
- ▶ High cutting speed.

Robust high-carbon steel blades which perform well over time with high cutting speed and high precision in clean wood, plasterboard and plastics. Can become blunt if contact is made with metal or masonry.

FEIN HCS precision wood blades

- ▶ Double row Japan teeth.
- ▶ Fastest cutting speed.
- ▶ Maximum precision cuts.
- ▶ Ideal for use in clean wood and soft plastics.
- ▶ Made by FEIN in Germany.

FEIN's quickest and most precise saw blades use a Japanese-style tooth pattern to remove excess sawdust quickly but can become blunt if contact is made with metal or masonry.

E-CUT 161 form long-life saw blade

STARLOCK PLUS

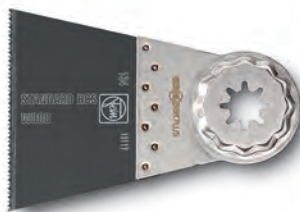

- ▶ Wide shape for long, straight cuts.
- ▶ 50mm length x 65mm width.

SINGLE PACK	PART NO. 6 35 02 161 21 0	£13.03
3 PACK	PART NO. 6 35 02 161 22 0	£37.14

10 PACK	PART NO. 6 35 02 161 24 0	£110.80

E-CUT 134 form standard saw blade

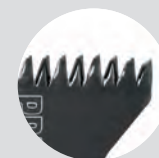

STARLOCK PLUS

- ▶ Wide shape for long, straight cuts.
- ▶ 50mm length x 65mm width.

SINGLE PACK	PART NO. 6 35 02 134 21 0	£11.09
3 PACK	PART NO. 6 35 02 134 22 0	£31.61
5 PACK	PART NO. 6 35 02 134 23 0	£49.88
10 PACK	PART NO. 6 35 02 134 24 0	£94.26

FEIN BIM precision wood blades

- ▶ Bi-metal teeth.
- ▶ Fastest cutting speed.
- ▶ Maximum precision cuts.
- ▶ New saw tooth geometry for greater durability.
- ▶ Made by FEIN in Germany.

The fast, precise cutting speed of these blades makes them ideally suited for use in clean wood and soft plastics. These blades are more tolerant to hardened materials but are NOT designed to cut nails or screws.

E-CUT 198 form HCS precision saw blade

STARLOCK PLUS

- ▶ Medium width for various uses.
- ▶ 50mm length x 45mm width.

SINGLE PACK	PART NO. 6 35 02 198 21 0	£12.70

Starlock Plus E-Cut Blades

FEIN BIM universal blades for wood and metal

- ▶ Bi-metal corrugated teeth.
- ▶ Optimum cutting speed.
- ▶ Good swarf removal.
- ▶ Extremely durable.
- ▶ Made by FEIN in Germany.

FEIN's most popular blades feature a waved geometry similar to that found on hacksaw blades making them ideally suited to cutting both wood and mild steel.

With bi-metal corrugated universal teeth, these blades have a wide range of applications for sheet metal up to 2mm thick including aluminium profiles, copper pipes, wood, plasterboard and plastics.

Ideally suited for use undercutting door frames and sawing through work pieces where harder material can be hidden such as nails or tacks.

These blades can, however, become blunt if contact is made with screws or masonry.

E-CUT 151 form BIM universal saw blade

STARLOCK PLUS

- ▶ Narrow, with waist for optimum cutting speed and good swarf removal.
- ▶ 60mm length x 28mm width.

SINGLE PACK	PART NO. 6 35 02 151 21 0	£14.52
3 PACK	PART NO. 6 35 02 151 22 0	£41.38
5 PACK	PART NO. 6 35 02 151 23 0	£65.36
10 PACK	PART NO. 6 35 02 151 24 0	£123.38

E-CUT 152 form BIM universal saw blade

STARLOCK PLUS

- ▶ Wide with waist for good swarf removal.
- ▶ 60mm length x 44mm width.

SINGLE PACK	PART NO. 6 35 02 152 21 0	£15.15
3 PACK	PART NO. 6 35 02 152 22 0	£43.14
5 PACK	PART NO. 6 35 02 152 23 0	£68.11
10 PACK	PART NO. 6 35 02 152 24 0	£128.67

Starlock Plus Circular Blades

FEIN HSS metal saw blades

- ▶ Highly versatile blades with a long service life.
- ▶ Made by FEIN in Germany.

Fein HSS saw blades are designed to cut through wood, metal, plastics and glass-reinforced plastics and are available in either fully-rounded or segmented versions – ideal for reaching flush against the work piece. With the introduction of the Starlock fitting, the QuickIn pin is now recessed inside the blade allowing these blades to be used flat.

34 PIECE SET PART NO. 3 52 22 942 06 0 **£170.32**

Saw and file set

STARLOCK PLUS

- ▶ 1x 10mm, 1x 20mm E-cut long-life saw blade.
- ▶ 1x 10mm carbide file.

03 PIECE SET PART NO. 3 52 22 952 02 0 **£25.71**

FEIN long-life wood blades

- ▶ Bi-metal teeth.
- ▶ Can cut through nails.
- ▶ Last 3 times longer than standard blades.
- ▶ High cutting speed.
- ▶ Made by FEIN in Germany.

Designed primarily for use in wood, the geometry of these unique blades is similar to that of the FEIN standard wood blade. As a result, cuts are made quickly and precisely through the work piece. The major difference is the bi-metal teeth which have a service life three times longer than standard blades.

These blades provide high cutting speed and are not affected by accidental contact with masonry or nails (up to 4mm) making them ideal for sawing in wood, plasterboard, plastic and fibreglass-reinforced plastic.

They are produced by FEIN in Germany at the Schwäbisch Gmund-Bargau site alongside the OMTs and other E-Cut blades – ensuring the best quality.

E-CUT 201 form long-life saw blade

STARLOCK MAX

- ▶ Long, wide shape for large plunge depths.
- ▶ 78mm length x 32mm width.

SINGLE PACK	PART NO. 6 35 02 201 21 0	£14.53
3 PACK	PART NO. 6 35 02 201 22 0	£38.85

E-CUT 203 form long-life saw blade

STARLOCK MAX

- ▶ Long, wide shape for large plunge depths.
- ▶ 78mm length x 42mm width.

SINGLE PACK	PART NO. 6 35 02 203 21 0	£15.09
3 PACK	PART NO. 6 35 02 203 22 0	£40.36
5 PACK	PART NO. 6 35 02 203 23 0	£67.93
10 PACK	PART NO. 6 35 02 203 24 0	£128.28

FEIN standard wood blades

- ▶ Robust high-carbon steel.
- ▶ Ideal for clean cuts in wood.
- ▶ High precision cuts.
- ▶ High cutting speed.
- ▶ Made by FEIN in Germany.

Designed to give clean cuts in wood, the FEIN standard wood blade is made from a robust high-carbon steel which performs well over time with high cutting speeds and high precision.

FEIN standard wood blades are ideally suited for use in clean wood, plasterboard and plastics.

It should be noted however, that blades can become blunt if accidental contact is made with nails, screws, metal or masonry.

FEIN grout removal blades

- ▶ Tungsten carbide or diamond coated.
- ▶ Segmented for improved access to the work piece.
- ▶ Made by FEIN in Germany.

FEIN grout removal tiles are ideal for removing damaged tiles. They are also great for cutting slots in plaster, porous concrete and similar building materials and even for cleaning and reworking deck joints on boats. They are available in tungsten carbide coated or diamond coated versions – the diamond coated blades lasting approximately four times longer with no noticeable loss of performance.

The diamond coated blades can also cut into very hard epoxy resin and cement joints and are the best choice for frequent use and challenging jobs.

Tungsten carbide 213 form 105mm Ø saw blade

STARLOCK MAX

- ▶ Cost-effective carbide blade.
- ▶ 105mm diameter.
- ▶ 2.2mm cutting width.

Exploit new power and freedom with FEIN SELECT+ cordless tools.

- ▶ Select 12V or 18V power.
- ▶ Select 2.5Ah or 5.0Ah capacity.
- ▶ SELECT+

The FEIN SELECT+ cordless power tool system

You know better than we do exactly what level of performance you need from a FEIN cordless power tool. You know what you'll use it for, how hard it's going to have to work, and how long you'll need its power to last.

That's why FEIN have created the SELECT+ system. Simply put, it allows you to buy your chosen cordless power tool without batteries. That way, you can choose exactly the level of power and performance you need by selecting the appropriate rechargeable battery and charger – or you can save money by using the same battery for more than one SELECT+ machine.

And if you're already a FEIN cordless power tool user, you'll find the 12V or 18V SELECT+ batteries you already own will fit your new 12V or 18V SELECT+ machine.

SELECT+ 12V & 12V Tools

FEIN SELECT+ 12V power tools

- ▶ Cost-effective and convenient.
