Repair Terms & Conditions

If you decide <u>not to go ahead</u> with the repair you will be charged a quotation fee of \$33.00 inc GST and the tool may be returned disassembled. All dust extractors and tools must be clean before sending for repair. Dust extractors sent with full or partially full dust bags or in a state that requires the unit to be cleaned before inspection will incur charges. Some dusts found in extractors or sanders can be hazardous to health. If your tools are used in a hazardous environment <u>YOU MUST</u> state this to our office prior to the arrangement of pickup. It is an offence to transport hazardous substances.

By signing the above I agree that the Tooltechnic Systems Australia Repair Workshop will automatically repair the product where the repair costs does not exceed \$150.
