Improvements are more than just details.

Starlock is the new mount for FEIN Original accessories.
It is 100% compatible with all FEIN oscillating power tools.

NEW!

Our accessory highlights.

FEIN Precision Bimetal E-Cut:

FEIN has used the proven principle of Japanese teeth on the FEIN E-CUT, perfected and re-applied it in bimetal. For greater strength, resilience, speed and outstanding cuts.

FEIN E-Cut Long-Life saw blades:

Our FEIN E-Cut Long-Life saw blades work effortlessly in diverse wood types and last up to three times longer than conventional saw blades. For longer, more efficient and more precise work.

Innovative 3D shape

- ▶ The special geometry produces greater fit.
- ▶ Enables smoother and quieter movements.
- ▶ Works noticeably more accurate, quieter and ensures more exact cutting sequences.
- ▶ Up to 25% faster work progress.

Longer tool life

- ▶ 3x longer tool life thanks to bimetal teeth.

Cleaner cuts

- ▶ Outstanding cutting speed without rough edges.
- ▶ Smoother saw blade start-up.

NEW!

Maximum cutting speed

- ▶ Faster and more consistent work progress.

Robust saw tooth geometry

- ▶ Shortened, specially-ground corner teeth prevents break-out.

Ideal for all FEIN oscillating power tools and multi-tools from Bosch, Rigid, Makita, Milwaukee and many others.

For all FEIN oscillating power tools.
