INTRODUCING STARLOCK

The new tool mounting standard for oscillating power tools - fits all professional tools

Discover more at www.fein.com.au

STARLOCK
Universal accessory tool mounting for all FEIN oscillating multi-tools and popular multi-function tools on the market.

STARLOCK PLUS
Accessory tool mounting for all FEIN oscillating multi-tools and other multifunction tools with suitable tool mounting.

STARLOCK MAX
Accessory tool mounting for all FEIN SuperCut multi-tools and other multifunction tools with suitable tool mounting.

FEIN	MultiTalent + MultiMaster + SuperCut	SuperCut
Other suited models	Ideal for all MultiTools between 220 - 450 Watt with and without Starlock mounting	Ideal for all MultiTools > 400 Watt with Starlock mounting

THE STARLOCK MACHINE RANGE

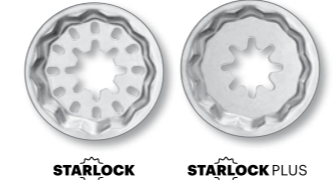

MultiTalent

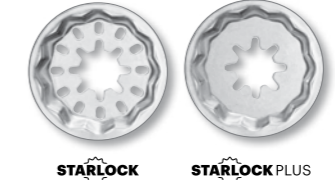

MultiMaster

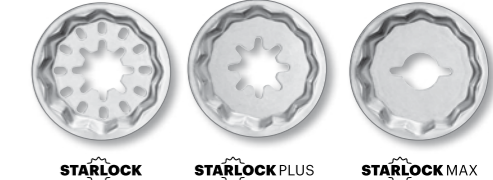

SuperCut

DIY applications, or small scale professional work.

Great all-rounder for regular professional use.

The most powerful oscillating system for constant professional use.

Mains Powered

MultiTalent Q-Start
FMT 250 QSL | 72295361060

- Oscillations: 11,000 - 20,000 rpm
- Power: 250 W
- Weight 1.4kg
- Tool in carry case

\$299

MultiMaster Q-Start
FMM 350 QSL | 72295262060

- Oscillations: 10,000 - 19,500 rpm
- Power: 350 W
- Weight 1.4kg
- Tool in carry case

\$439

SuperCut Q
FSC 2.0 Q | 72363650060

- Oscillations: 11,000-18,500 rpm
- Power: 400W
- Weight: 1.45kg
- Tool in carry case

\$929 *This machine does not have Starlock fitting

Cordless

Cordless MultiTalent
AFMT 12 QSL | 71292562000

- Oscillations: 11,000 - 18,000 rpm
- Power: 12V
- Skin in carry case
- Batteries and charger sold separately

\$289 *Available from April 2017

Cordless MultiMaster
AFMM 18 QSL | 7129262000

- Oscillations: 11,000 - 18,500 rpm
- Power: 18V
- Skin in carry case
- Batteries and charger sold separately

\$315

Cordless 18v SuperCut
AFSC 18 QSL | 71292760000

- Oscillations: 10,000 - 19,500 rpm
- Power: 18V
- Skin in carry case
- Batteries and charger sold separately

\$595

The above models do not include batteries or charger. Kits with accessories are also available for all cordless models.

BONUS OFFER

5 BONUS Blades with any Fein Oscillating tool

FEIN Genuine Accessories

MADE BY FEIN We consider this not only a quality feature, but a promise. Developed by FEIN and mostly manufactured in Germany with state-of-the-art production facilities, FEIN genuine accessories represent outstanding quality and reliable functionality combined with maximum service life and precision.

The FEIN MultiTalent is the tool of choice for anyone looking for a cost-effective entry level tool offering ideal value for money, this universal tool system for interior work and renovation offers access to almost the entire range of Starlock and StarlockPlus accessories.

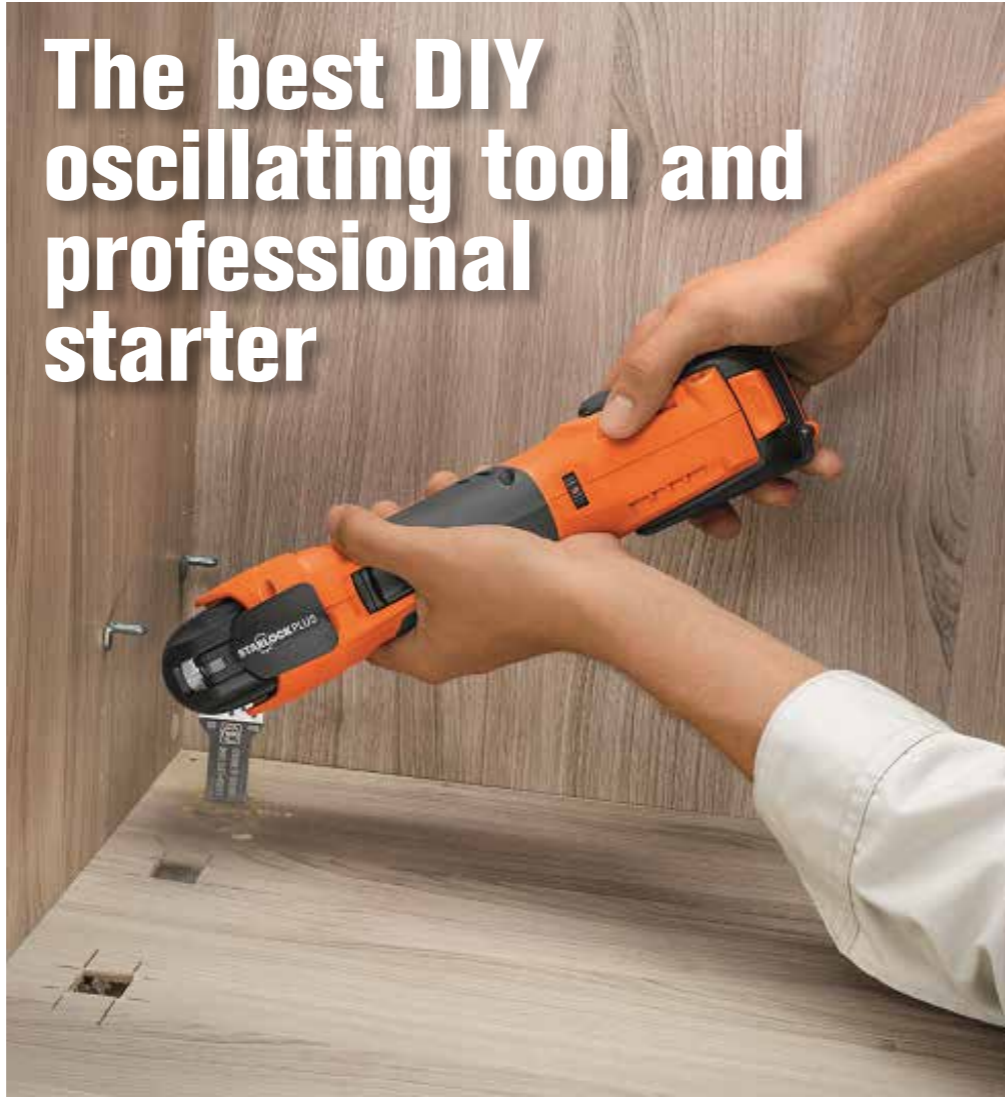

QuickIN. Patented tool-free FEIN rapid clamping system. When combined with Starlock, safely and conveniently delivers the fastest tool change of less than 3 seconds.

Metal gearbox. Ability to withstand high loading and outstanding service life. All gearbox parts are made from metal.

The best DIY oscillating tool and professional starter

Cordless

Cordless MultiTalent
AFMT 12 QSL | 71292562000

- Oscillations: 11,000 - 18,000 rpm
- Power: 12V
- Weight 1.4kg
- Skin only in carry case

\$289 *Available from April 2017

Add Battery Starter Set
(charger + 2 x 12V Batteries)

- Power: 350 W
- Weight 1.4kg
- Tool in carry case

1 FEIN FMM 350 QSL, 1 sanding pad, sanding sheets (3 of each grit 60, 80, 120, 180), 1 fixed scraper, 1 universal e-cut saw blade (44mm) in plastic carry case

\$439

UP TO 35%
FASTER WORK PROGRESS

UP TO 70%
LESS VIBRATION

UP TO 50%
LESS OPERATING NOISE

Exclusive to Fein, the MultiMaster features the unique Anti-Vibration System with fully decoupled housing for minimum physical strain, perfect results and optimum functionality.

Built for the tough demands of professional trades, with durable metal gearbox, innovative anti-vibration technology, smooth running, quieter operation and 350W of power (or 18V).

High-quality electronics with variable electronic speed for precise results and constant speeds under load. Available in cordless and mains powered models.

Effectively and efficiently remove materials from painted and weathered surfaces, such as wooden windows, garage doors and steps with the sanding backing pads and abrasives.

BRUSHLESS MOTOR

The specialist amongst oscillating power tools

Best suited to industries requiring heavy continuous use of a multi tool in daily work, with a range of specialist accessories designed for application solutions coupled with maximum performance and service life.

High-power brushless motor (Cordless model). 100% power transmission without losses for up to 35% more work progress coupled with improved precision. Designed for continuous use and overload.

Anti-vibration system. Self-supporting motor with full separation from the housing provides effective reduction of vibrations. For minimum physical strain, safe working and superb noise reduction.

No matter how challenging the application, from fitting furniture, flooring, doors, walls or stairs, your work is made considerably easier with the Fein SuperCut and the unique Starlock Max range of accessories.

Robust and versatile. Metal gearbox with the ability to withstanding high loading, plus mechanical interface that enables stationary operation in the table or drill jig holder or for securing the depth stop.

MADE BY FEIN

We consider this not only a quality feature, but a promise. Developed by FEIN and mostly manufactured in Germany with state-of-the-art production facilities, FEIN genuine accessories represent outstanding quality and reliable functionality combined with maximum service life and precision.

STARLOCK	universal tool mounting for most popular multi-tools.	STARLOCK MAX	tool mounting for multi-tools 450 W or more.
STARLOCK PLUS	tool mounting for multi-tools 250 W or more.		refer to other side of poster for more details.

WOOD	E-Cut standard saw blade	E-Cut long-life saw blade	E-Cut precision saw blade	E-Cut precision BIM saw blade	HSS saw blade	WOOD/METAL	E-Cut universal saw blade
	Set teeth, high cutting quality and speed.	Bimetal with set HSS wood teeth. Outstanding tool life, high cutting quality and speed.	Double-row Japan teeth. Fastest cutting speed and maximum precision.	Bimetal with double-row HSS Japan teeth. Improved tool life and robustness with fastest cutting speed and maximum precision.	Bimetal for long tool life. Set HSS wood teeth. Outstanding tool life, high cutting quality and speed.		Bimetal with corrugated HSS universal teeth. Wide range of applications.
	For: • wood • plasterboard • plastic	For: • wood • plasterboard • plastic • resilient to nails in wood, masonry, etc	For: • wood • plasterboard • soft plastics	For: • wood • plasterboard • soft plastics	For: • long, straight cuts • making cut-outs in laid wall panelling, parquet and laminate.		For: • sheet metal up to 2 mm • aluminium profiles • copper pipes • wood • plasterboard • plastic

METAL	E-Cut fine saw blade	HSS saw blade	HSS BIM saw blade	COMPOSITE	Carbide saw blade	Diamond saw blade
	Bimetal with fine HSS teeth. Extremely precise cuts which are very easy to control with particularly thin cutting profile.	Solid HSS with metal teeth. Outstanding cutting speed with clean, thin cutting line.	Bimetal with HSS metal teeth and outstanding tool life. Cuts flush to the surface.		Gentle sawing for perfect, clean cut edges without delamination. Precise working into corners and on edges or for long, straight cuts with high cutting speed and precision.	Gentle sawing for perfect, clean cut edges without delamination. Precise working into corners and on edges or for long, straight cuts with high cutting speed and precision.
	For: • sheet metal up to 2 mm • aluminium profiles • copper pipes • fibreglass-reinforced plastic • hard plastics	For: • sheet metal up to 1 mm • copper/copper alloys • plastic • fibreglass-reinforced plastic • wood • putty	For: • sheet metal up to 1 mm • copper/copper alloys • plastic • fibreglass-reinforced plastic • wood • putty			For: • carbon fibre-reinforced plastic • fibreglass-reinforced plastic

SPECIAL MATERIALS	Saw blade	Segment saw blade	Cutting tool	Scraper blade	Diamond cleaning knife	Cutter blade	Cutter blade	Cutter blade	HSS circular knife
	Segmented, ideal for working in corners and on edges without overcutting.	For cutting out putty-mounted insulating glass.	Ideal for making grooves in rigid foam panels for plastic pipes. Pipes remain fixed due to the precise profile of the cut outs.	Efficient removal of old materials.	Efficient cleaning of mortar flanks before filling them in again.	Ideal for separating insulating glass units.	Ideal for working in problem areas such as cabins, rails, gunwales, cleats and curves at speed.	Universal blade for virtually all expansion joints.	For universal cutting work.
	For: • all soft materials	For: • all soft materials	For: • all soft materials	For: • removing old paint/adhesive • carpets • underseals • silicone or acrylic joints	For: • mortar	For: • silicone • soft materials	For: • sealant materials	For: • soft materials	For: • leather • plastic sheets • roofing fabric • cork

SANDING	Sanding/backing pads	Sandpaper	Profile sanding set	Polishing pads/sheets
	Wide range of pads for versatile sanding application. Plastic carrier plates prevent damage to workpiece. Perforated versions available for effective dust extraction while sanding. Sandpaper held securely by hook and loop fastening.	Wide range of perforated and non-perforated abrasives with extremely long service life.	Holder and different profile inserts.	Large range of surface processing accessories to clean, prepare, polish and protect.
	For: • small recesses, corners • large areas • edges	For: • all materials	For: • sanding in grooves	For: • very fine sanding • mirror polish on furniture, boats and vehicles.

FIND THE RIGHT ACCESSORY FOR YOUR APPLICATION.

	WOOD For precise processing of hardwood, softwood and all other wood materials.		WOOD / METAL Broad application spectrum: Universal use for many woods and metals.		METAL For professional processing of many different metals and alloys.		GROUT For cutting out tile grout and cutting grooves in plaster, porous, concrete, etc.		COMPOSITE For perfect, clean cut edges without delamination in CFRP/fibreglass materials.		SPECIAL MATERIAL For removing old paint, adhesive residue, carpet floor coverings and underseal.
