1 x 63502184210 | 2 x 63502160210 | 2 x 63502161210 | Total value **\$132**

## FEIN genuine accessories: Perfectly matched to the tool and application

The extensive range of Fein accessories allow you to optimise the versatility and capacity of the Fein range of Multi tools. Accessories are ideally matched to the application allowing you to achieve quality results with precision and speed.

Fein offers a complete accessory program for sanding applications and cleaning tile joints. Fein is the only provider able to offer FULL HSS saw blades in the right shape of 0.5 mm for bodywork. The sanding finger is also unique to Fein.

### Wood & Plunge Cuts

From trimming pieces of timber to size or having to plunge cut for a power point or other application there is a blade to suit every size and depth of timber cut

### Hardwood with nail

The long life saw blades have bimetal teeth which have a very long tool life that allows you to saw through nails without destroying the blade. Suitable for installation work.

### Flooring

From parquet, laminate or composite material - the E-Cut Universale saw blades cut all materials with precision.

### Metal

A wide range of blades available for all forms of timber work. From cut outs in construction wood, plasterboard, skirting boards etc there is a blade to meet your application.

### Grout

When removing damaged tile joints in corners and on edges, the carbide segment saw blade ensures precise working without over cutting.

### Sanding

With a wide range of backing pads available there is one for every application. Matched with the right abrasive you will be able to sand narrow gaps to flat surface quickly and easily. Paired with efficient dust extraction will also provide a clean and healthy working environment.

### Rasping

For rough sanding of fillers, tile adhesives, concrete, stone and wood you can't go past the wide range of carbide rasping accessories to provide excellent results first time.

### Adhesive

Carpet adhesive residue and coatings don't stand a chance against the rigid stopper knife or a carbide rasp to remove tile adhesive to level a base.

# The next generation now comes in cordless.

### Operating Comfort

Slim handle, perfect balance and low weight provide outstanding ergonomics and unbeatable handling. Perfect for long operating periods.

### QuickIN

Patented and proven QuickIN clamping system for convenient, fast tool changes without additional equipment required.

### Anti-vibration system

Effective decoupling of motor / gearbox and battery from the housing to reduce the vibration up to 70% and operating noise by 50%.

### Li-ion battery / charger technology

High capacity and great performance with 18V batteries. Along with capacity display directly viewable on the battery.

## FEIN Select+

Add Battery Starter Set (charger + 2 x 18V 4Ah Batteries) \$329 | 92604302020

Customised kit in plastic carrying case

### Interior Work

Manual work that was previously time consuming is now efficient. The AFMM 18 can saw everything - from very fine cuts to recess, heavy beams and construction wood. Great for tight work spaces, angles and corners ensuring rapid, fatigue-free working.

### Windows and Doors

Effectively renovates patined and weathered surfaces, such as wooden windows, garage doors and steps with the sanding backing pads and abrasives.

### Walls and Flooring

From renovating living rooms and bathrooms to redesigning of indoor and outdoor areas the MultiMaster has the appropriate accessory for the task at hand.

### Vehicle and Boat Maintenance

From restoring teak decks, sanding automotive panels or precise cut outs in difficult to reach places you can't go past the cordless AFMM 18 for minor repairs to major overhauls.

## FEIN Super Cut

Performance is the Key. The FEIN Super Cut is the unique oscillating power tool on the market and its performance is consistently focused on the needs of tough sawing and cutting work.

### Time Saving QuickIN

Rapid clamping system for convenient and fast tool changes without a wrench.

### Efficient and Durable

In tough working conditions the housing has a long service life while efficiency is key thanks to constant oscillation of the tool.

### Intelligent

Electronic speed control with tachogenerator for high speed consistency when loaded. Ideal for continuous usage.

## FEIN Multi Talent

The Fein Multi Talent is a handy DIY tool. Electronic speed setting to match the material and a large range of accessories are available.

### Ergonomics

Fatigue-free working thanks to ideal distribution of weight and ergonomic shape featuring soft grip zone.

### Tool mounting

The Starlock tool mounting guarantees optimum torque transfer for work progress with genuine FEIN accessories.
